

Seeds for Social Renewal: The Camphill Village Conferences (Karl Konig Archive)

In these lectures, Konig explores the human being and social life, the individual and community, from an imaginative and often radical perspective. These explorations range majestically from masks and archetypal images, the threefold constitution in man and woman, the karma of vocation, and the fundamental social law, to the place of work, religion and culture within the threefold social organism, and karma and reincarnation. The lectures arose from Dr. Konigs experiences in establishing and building Camphill Communities with extraordinary people with special needs. They are important both for the work in Camphill, as well as more broadly in the field of social therapy and beyond. This is a revised and expanded edition of the Village Conference Lectures of Karl Konig, previously published as *In Need of Special Understanding*.
