

The Carry Crew Concept: How to Build Crews to Carry People in Hard Times

Do you know someone who needs help, but don't know how to help them? You are not alone! It's a question many people ask when someone they love is experiencing hard times. The Carry Crew Concept will equip you to easily build a crew of volunteers to help your friend fast. I developed The Carry Crew Concept to help my friend, Jim, who had been diagnosed with a terminal illness called ALS or Lou Gehrig's Disease. Together with about two dozen amazing volunteers, our Carry Crew provided support services for the family -- such as house cleaning, meal delivery, grocery shopping, and yard work -- throughout the last five years of Jim's devastating illness. With this book, people worldwide can learn the simple steps of creating their own Carry Crew so they can provide the help their friends desperately need. Imagine it: No more feelings of wanting to help, but not knowing how. No more people needing help, but not getting it. It may sound like a dream, but it could be our reality. Carry Crews unite!
